

## FHIR Layer Exchange Release Notes

### Optum Behavioral Health Data Exchange for [Optum Idaho County](#)

Release: #3.7| Date: JAN 16, 2024

---

#### A. **New and Improved**

##### a. **Access Management**

###### i. **Admin Portal**

1. No Changes in this release

###### ii. **Vendor Portal**

1. No Changes in this release

###### iii. **Member Portal**

1. No Changes in this release

###### iv. **Authorization/Authentication**

1. Added Actuator Health Endpoint to show Health Statistics of the Running Application
2. Removed need for new build in case of configuration changes in AppInsights, thereby saving the build time.
3. Framework update and Security related updates.

##### b. **Framework**

###### i. **Flex Server**

1. Framework update and Security related updates

##### c. **Patient Access APIs**

###### i. **Patient Claims**

1. Implementation Guide: CARIN for Blue Button®  
<http://hl7.org/fhir/us/carin-bb/>
2. No Change

## d. Public Directory APIs

### i. Provider Directory

1. Implementation Guide: PDEX Payer Network  
<https://build.fhir.org/ig/HL7/davinci-pdex-plan-net/>
2. getPageOffset and include parameter has been removed from provider directory resource's "Location", "Practitioner" & "Practitioner Role" as the backend source system is not supporting the same. If user was trying to get a specific record, backend source system was not supporting the same, hence it has been removed.

**Impact:** User will now not see any error while trying to perform offset action.

## B. Bug Fixes

- i. Security updates and vulnerability fixes to App owner Portal experience

## C. Known Issues

- i. **Vendors:** Will not receive an email after the organization attestation is past due. Vendor will receive all other emails as is. The issue is expected to be fixed in the upcoming release.
